

ReBe Education Residency Pilot Overview for School and District Leaders

Purpose: The ReBe Education (Ed) Residency Pilot allows schools to evaluate the benefits of *ReBe Ed* resources to fulfill *JustReBe*'s mission to revitalize individuals and organizations, igniting wholeness - true wellbeing, productivity, and social connection. The ReBe Ed Residency Pilot provides selected schools with five months of ongoing professional development.

What's Included in a ReBe Ed Residency Pilot? ReBe Ed Residency Pilot provides selected schools for classroom teachers that include:

- Emotional, Physical, Intellectual, Cultural, Social Health (EPICS) Health Boosts Facilitator Guides (25 per grade-level digitally) designed to improve the whole health of participating students and educators.
- Five Structured Literacy LABS™ (Learning Applied By Students): Grade-band Modules-designed to support in the areas of the Science of Reading (SoR) - Word Work, Vocabulary & Comprehension LABS™, and Financial and Digital Literacy LABS™.
- Observational tools and mentoring throughout the five-month residency
- ReBe Feedback Forms
- Instructional and technical support

How It Works in Classrooms. Participating schools are onboarded through professional development training either in-person or online facilitated by ReBe Ed's Trainers. Classroom teachers or school counselors then deliver brief ReBe Health Boosts during periods of regular instruction (approximately 7-10 min) utilizing EPICS Health Boosts Facilitator Guides, videos, Literacy LABS™, and provided literacy resources.

Data, Feedback & Privacy. The ReBe Residency Pilot focuses on gathering honest feedback from participating classroom teachers and counselors to improve the ReBe Ed resources. Data collected from this Pilot may include educator surveys, anonymous student work samples, and educator interviews.

- ReBe Ed does not collect student personal identifiable information without a separate written data agreement.
- All student work or feedback shared with ReBe is de-identified.
- Aggregated results (e.g., "80% of teachers reported...") may be shared with participating schools and stakeholders.

Pilot Roles & Responsibilities.

ReBe Ed Provides:

- ReBe Materials, Pilot training (1–3 hours per group), coaching, and implementation support
- De-identified analysis of feedback and results
- Proof of liability insurance, expanded criminal histories, and compliance with all district and school policies

Participating School Provides:

- Selected classrooms, educators, and a main point of contact
- Ensure teacher or counselor participation in training
- Communication with parents/guardians per policy (opt-in or opt-out if needed)
- Reasonable cooperation with scheduling and feedback collection

Use of Program Materials. Schools receive a limited license to use ReBe Ed materials only during the Pilot. ReBe Ed materials may not be posted publicly, shared, replicated or used to develop competing programs.

Fees & Payment.

- **Residency Package.** The cost for the ReBe Residency Pilot is \$3,000 plus travel (\$6,000 value) to include one full day of in-person or online training, all ReBe Ed digital resources (K-5 Health Boosts & Structured Literacy LABS™ Overview), observational tools, extended online monthly training, and coaching **for up to 15 participants per package.**

Next Steps.

1. Schedule a ReBe Ed Pilot virtual Discovery Call
2. Confirm participating schools, grade levels, and classrooms
3. Sign the ReBe Education Pilot Agreement
4. Schedule onboarding teacher training
5. Launch Pilot classroom implementation
6. Review survey data results and discuss future steps with ReBe Ed

Key Strategies for Educational Impact

Action	Purpose/Focus	Details/Frameworks
Creating a viable, successful working relationship	Intentional positive impact	Supports educators and students
Supporting implementation of school's goals	Establishing strong literacy foundation	Goals, objectives, insights
Developing excellence through gradual release of responsibility into Structured Literacy LABS™	Strengthening small group instruction and spaced practice	Five areas of reading within Science of Reading Framework: phonological awareness, phonics, vocabulary, fluency, comprehension; Financial and Digital Literacy
Providing Facilitator Training	Stimulate collegial conversation between educators & administrators, creating strategic classrooms	Observational Learning Walks, feedback
Implementing enhanced intentional, systematic, spaced-practiced independent instruction	Essential questions, standards-based measurable learning objectives	Multi-sensory whole brain experiential learning, techniques, learning styles/multiple intelligences
Incorporating current research	Motivate, engage, inspire educators	Apply newfound knowledge based on professional development outcomes
Executing proven literacy strategies	Raise students' literacy levels of academic success	Reading, writing, listening, viewing, speaking, language; techniques to support strategies
Employing conversational coaching	Foster higher order, critical thinking	Accountable talk, interactive and inquiry-based environment, sustained learning
Crafting grade appropriate scope & sequence gradients	Enhance primary curriculum map	Brain-Based Learning, Growth Mind Sets
